What Actually Works:
Integration over replacement

- Faster feedback loops
- Visibility across pipelines and environments
- More reliable test outcomes
- Governance Without Bottlenecks

92% of teams achieved greater delivery efficiency by integrating systems instead of replacing them.

CloudBees

Use Case

AI-assisted test selection

2x

Increase in release velocity

80%

Reduction in pre-commit testing time (down to ~2 hours)

90% confidence

achieved in detecting failures with significantly fewer tests.

40,000 testing hours saved in one year using AI-assisted test selection.
